Used keys from the keysafe to gain entry of the house.

Wore PPE. Beryl was asleep. Woke her up and exchanged greetings. Ensured the curtains are closed to maintain the privacy and dignity. With consent gave her full body Supported her in washing her lower body and back. Dried her

Applied a thin layer of aveena cream on her body, assisted her to get dressed.

Applied pea sized derma cream on her bottom and put on fresh pad for the day. Served her breakfast of her choice, (cup of tea and bread with butter and marmalade). Administered her medication and she took it in our presence. Tidy the work area. Left a beaker of lucozade in her reach. Checked from her if anything else is needed. She said she is alright. Nothing else was needed so left her safe.

Used keys from keysafe to get the access of the door. Beryl was in bed watching television. We exchanged greetings, she'd eaten but hadn't finished her lunch.

Assisted with changing her pad, bowels open. Wiped her bottom with baby wipes and applied comfortably on pillows. Served her with a cup of tea and some cake and biscuits also kept a fresh glass of water and lucozade on her table next to bed.. Cleaned the dishes and wiped the kitchen top. Checked if she needs anything else but she insisted she was okay. Locked the door, put the keys back in safe and left her safe.

Accessed Beryl's using a key by the safe, she was in bed still sleeping. We woke her up and greeted her and asked for consent to commence care. Gave her a full body wash, lotion on her skin and barrier cream on her bottom, changed her pad and clothes, changed the bed mat and repositioned her using a sliding sheet, covered her well in bed, administered her medication, prepared and served her breakfast. She then gave us her shopping list and £100 to do her shopping. Tidied up the area used, left her comfortable taking her breakfast. Disposed off PPE and pad, locked the door and returned the key back to the safe.

Accessed the house using a key by the safe. Beryl was in bed watching tv, exchanged greetings and asked for consent to commence care. Changed her pad, applied barrier cream on her bottom, repositioned her well in bed using sliding sheet, covered her well and switched on the potable heater on her bed side. Washed dishes, prepared and served her lunch a bowl of fruits, a cup of tea, chocolate cake. Tidied area used and left her in bed comfortable and having her meal. Disposed PPE and pad, locked the door and returned key back to the safe.

On arrival Beryl was in bed already awake. We exchanged greetings and asked for consent to commence care. Gave her full body wash, lotion on skin, cream on bottom, changed her pad and her top, repositioned her using sliding sheet and covered her warm and comfortable. Administered her medication, prepared and served her toasted bread and a cup of tea, glass of lucozade. Ensured all she needed was within reach, tidied the area used, disposed PPE and pad on our way out.

Beryl was in bed awake on arrival. We exchanged greetings and asked for consent to commence care. We noticed that the meal we left, she hardly ate the fruits but finished the tomato soup. Put on PPE, BO, refreshed her bottom, applied barrier cream, changed her pad and repositioned her in bed, ensured she was warm and comfortable. We then microwaved and served her shepherd's pie, a glass of wine and a cup cake for dessert. Left her well and in bed.

Belly was in bed watching tv on arrival. Exchanged greetings and asked for consent to commence care. Put on PPE. Checked her pad and was dry, ensured she was warm and comfortable. Administered her medication. Tidied up and did the dishes. Microwaved and served her custard, yakult and a cup of tea. Ensured all she needed was within reach, left her having her custard and a slice of cake. Disposed PPE and Locke the door.

Used keys from the keysafe to gain entry of the house.

Wore PPE. Beryl was asleep. Woke her up and exchanged greetings. Ensured the curtains are closed to maintain the privacy and dignity. With consent gave her full body wash using flannel. Supported her in washing her lower body and back. Dried her skin thoroughly and checked her skin, and skin was intact.

No redness found on skin. Applied a thin layer of aveena cream on her body, assisted her to get dressed.

Applied pea sized derma cream on her bottom and put on fresh pad for the day. Served her breakfast of her choice, (cup of tea and bread with butter and marmalade). Administered her medication and she took it in our presence. Tidy the work area. Left a beaker of lucozade in her reach. Checked from her if anything else is needed. She said she is alright. Nothing else was needed so left her safe.

Used keys from keysafe to get the access of the door. Beryl was in bed watching television. We exchanged greetings, she'd eaten but hadn't finished her lunch.

Assisted with changing her pad, bowels open. She'd also wet her bed. Wiped her bottom with baby wipes and applied barrier ?

cream. We changed her clothes and beddings, moved her up the bed using sliding sheet and positioned comfortably on pillows. Served her with a cup of tea and some cake and biscuits also kept a fresh glass of water and lucozade on her table next to bed.. Cleaned the dishes and wiped the kitchen top. Checked if she needs anything else but she insisted she was okay. Locked the door, put the keys back in safe and left her safe.
